

## COLSON ROLLS OUT DOLLY CASTER

### *Quality Low-Cost Dolly Caster with Multiple-Box Purchase Savings*

**JONESBORO, AR - July 20, 2010** – Colson Caster Corporation, the world’s leading manufacturer of standard and custom application caster and wheel products, has added a new, low-cost Dolly Caster to its current line-up of more than 35,000 different caster models. Available immediately, Colson’s new Dolly Caster is offered with special price breaks for multiple-box quantities.

“The Dolly Caster is another direct response to requests from our customers,” said Brian Crain, product manager for Colson. “It was designed and built to address the increasing need for reliable and smooth movement of materials for both our direct customers and our manufacturing partners.”

Sculpted to move dollies, food service carts, and stock carts easily and silently, with a clean non-marking roll, the new Dolly Caster rolls on - even in today’s most demanding material handling environments! The Dolly Caster fork is formed in an attractive and durable zinc-plated finish with a standard top plate mounting and fitted with an easy-rolling and non-marking grey TPR wheel. In addition the caster is built with a single centered precision wheel bearing to provide easy rolling with a unique plastic thread guard that also serves as an integrated spanner bushing. All of Colson’s Dolly Casters have a 1 ¼” tread and are available in 3”, 3 1/2”, 4” and 5” wheel diameters with load capacities from 180 to 260 pounds respectively.

All sizes are in stock and ready for immediate shipment. For more information on the new Dolly Caster and the special introductory price-saving options, contact Colson at 800.643.5515 or visit [www.colsoncaster.com](http://www.colsoncaster.com).
