

NEW CASTER OPTIONS EXPAND LOW-COST QUALITY LINE FROM COLSON

Encore Dolly Caster Line Adds Selections

JONESBORO, AR – December 21, 2011 – Colson Caster Corporation, the world’s leading manufacturer of standard and custom application caster and wheel products, has added new products to its low-cost ‘Encore’ Dolly Caster line. Requested by Colson customers, the additions include a top-lock brake model in all sizes, an economy rigid model, and the popular, optional #59 top plate is now available on all of Colson’s Encore Dolly line swivel casters.

“The requests to increase our Encore Dolly line started almost as soon as we introduced the line’s swivel caster last year,” said Brian Crain, product manager for Colson. “The products are the best-for-the-price when quality, durability, and performance still matter.”

Crafted to move dollies, food service carts, and stock carts easily and silently, the new products provide additional options for today’s demanding applications. The new top-lock brake model is formed with a durable zinc-plated finish, and paired with the series’ easy-rolling and non-marking grey TPR wheel. In addition, the wheel is fitted with a unique plastic thread guard that also serves as an integrated spanner bushing. All models have a 1 ¼” tread width and are available in 3”, 3 1/2”, 4” and 5” wheel diameters with load capacities tested from 180 to 260 pounds. The new caster selections are built with a single centered precision wheel bearing to provide easy rolling. The #59 top plate can now be ordered for any of the swivel models opening up more low-cost solutions for all of Colson’s customers’ high-priority applications.

Colson has been in business for more than 125 years, and today manufactures and globally markets more than 35,000 fully-tested caster and wheel products. All of the new line additions are available now for immediate shipment. For more information on the new Encore Dolly line product offerings or questions regarding any Colson product, contact the company at 800.643.5515 or visit www.colsoncaster.com.
