COLSON CASTER RECEIVES NEW ISO QUALITY CERTIFICATIONS

Company Earns 3-Year ISO 9001:2008 Recertification

Jonesboro, Arkansas, May 31, 2011 – Colson Caster Corporation, the world’s leading manufacturer of standard and custom application caster and wheel products, has been granted a new certificate of quality assurance from the International Organization for Standardization (ISO). The organization monitors manufacturers for adherence to the ISO 9000 family of standards for certification. The certification then represents a consensus of superior quality management practices recognized around the world. The certifications are essential and valuable to manufacturing companies as more customers insist upon the ISO standard level before considering product purchases.

“It is a great accomplishment to once again receive this certification for our quality management system,” said Vince Caligiuri, Lead Quality Engineer for Colson. “Our goal is to satisfy the requirements of our customers and this is certainly one of our major references for conducting business in today’s competitive manufacturing environments.”

ISO 9001:2008 is the standard that provides a set of sanctioned requirements for a quality management system. The ISO 9001:2008 standard creates a tried and tested framework for managing an organization's processes so they consistently turn out product that assures and satisfies customer expectations. Other standards in the family also cover specific business aspects such as terminologies, performance improvements, process auditing, documentation, and training practices.

About Colson Caster Corporation

For more than a century, Colson Caster Corporation has been providing the world with the highest quality and largest selection of premier caster and wheel products. Headquartered in Jonesboro, Arkansas for the last 50 years, and with more than 150,000 square feet of state-of-the-art manufacturing space, Colson designs and produces the industry’s largest selection of casters and wheel products, caster options, and accessories.
