

## **COLSON CASTER MAKES WAY FOR NEW ENFORCER**

### ***Enhanced Mid to Heavy-Duty Fork Product Line for Higher Capacity Applications***

**Jonesboro, Arkansas, October 29, 2009** – Colson Caster Corporation, the world’s leading manufacturer of standard and custom application caster and wheel products, is beefing up its Enforcer fork line with additional heavy-duty capabilities and new engineering features for more aggressive environments and applications. The new Enforcer is rated at up to 6,000 lbs capacity for even the most rigorous and exacting production sites.

“Our customer’s manufacturing and operations plants are becoming more demanding and routinely in need of higher performance equipment,” said Don Laux, President and General Manager at Colson. “The enhancements we have made to the new Enforcer series forks are substantial and critical to the expanded expectations of today’s extreme and unusual production settings.”

Perfect for manufacturing’s heaviest, tow-line venues such as automotive and tire production lines, to those of a more medium capability requirement such as food processing centers and sheet rock dollies, the new Enforcer line also has a completely kingpinless design with a single-ball raceway, providing tighter tolerance and limited play in swivel motion. In addition, the full series 4, 6, 7, and 8 line-up of Enforcer forks has been equipped with a selection of brake options including side-lock and tread-lock brakes in the 4 and 6 series, and tread-lock brakes in the 7 and 8 series offerings. The 4 and 6 series are also available with an extended lead option that’s ideal for towline applications, as well as a DirtBan seal in the upper raceway.

To make way for the newer and hardier Enforcer, Colson is offering the remaining inventory of the existing Enforcer fork at discounted prices until quantities are exhausted. Contact Colson at 800-643-5515 for clearance pricing on existing Enforcer products and for more features and availability of its new ‘beefy’ Enforcer line.

### **About Colson Caster Corporation**

For more than a century, Colson Caster Corporation has been providing the world with the highest quality and largest selection of premier caster and wheel products.
